QUICK START GUIDE
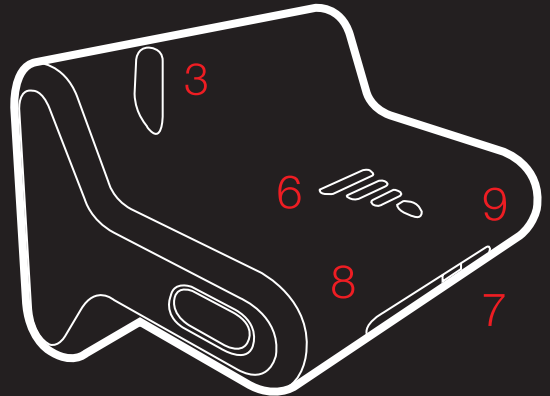

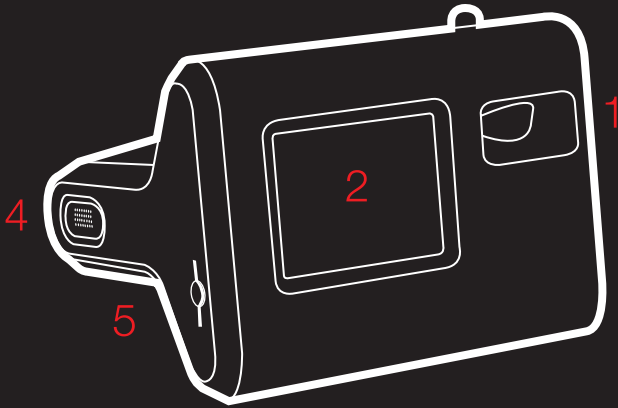

BASE UNIT FEATURES

1. **motion detector**
Point it at anything you want to protect. It senses motion to trigger the alarm.

2. **LCD touch screen**
Full color, touch activated LCD screen controls all alarm functions.

3. **cellular radio**
The alarm signal is sent out over the cellular network. There is no phone line to cut.

4. **dual speakers**
Projects alarms and sound effects.

5. **SD card slot**
Use it to load your digital jpg images.

6. **strobe light**
Flashes when there has been an alarm event. Also doubles as a night light.

7. **a/c power port**
Plug the AC adapter cord into the back of the base unit.

8. **back up battery**
Rechargeable battery powers the unit up to 20 hours if the power goes out.

9. **Rattlesnake™ technology**
EXCLUSIVE TATTLETALE FEATURE. Rattlesnake is an innovative tamper sensor. When the tattletale is armed, any attempt to destroy the base unit triggers an automatic alarm signal.

INVENTED AND MANUFACTURED IN THE USA

1] EASY SET UP STARTS HERE
PLUG IT IN

Point your tattletale at anything you want to protect or you can place in an area to intercept an intruder.

Find the power cord and plug it into the back of the tattletale base unit. Plug the AC adapter into outlet. The alarm system will automatically search for the nearest cell tower. The signal strength icon will indicate the quality of your cellular connection. If you do not have a cell signal call 1.888.TELLONU or go to tattletale.com for assistance.

Cell signal icon is located at the top left of the screen. Five bars indicates full power. Five RED bars indicate no cell service.

2] FOLLOW THE ON-SCREEN TUTORIAL

Just touch the screen anywhere to begin. You will be guided through the initial set-up process. You can return to the previous screen anytime by pressing 'back'.

- Create a PIN number
- Enter your mobile phone number
- Enter your Email address
- Learn in the key fob remote

24/7 MONITORING

OPTIONAL: If you would like to have a professional monitoring company dispatch the police, fire, or EMS personnel to your location go to tattletale.com to activate.

3] INCREASE YOUR WIRELESS PROTECTION
ADD SENSORS

Your tattletale base unit and your key fob remote, together, are a complete alarm system. To extend your wireless protection you can add additional wireless sensors.

OPTIONAL: Press the "Settings" button on the home screen. Press the "Sensors" button. Follow the on-screen instructions.

| Motion Detector | Door/Window Sensor | Glass Break Detector | Key Fob Remote | Smoke Detector |

4] UNLEASH YOUR SECRET WEAPON
ARM & DISARM

LEAVING HOME? Press "Away" on the home screen. The tattletale will arm itself after a 60-second delay. The built-in motion detector will arm as well as any additional sensor you may have. You may also press "Away" on the key fob remote.

STAYING HOME? Press "Home" on the home screen. The tattletale will arm itself instantly. Any perimeter sensors will arm. The built-in motion detector and any sensors designated interior will NOT arm. You may also press "Home" on the key fob remote.

TO DISARM SYSTEM: Press "Disarm" on the home screen and enter your 4-digit PIN OR press the "Unlock" button on the key fob remote.

GUIDE TO FEATURES

signal strength
Indicates the strength of the cell signal. RED bars indicate no cell service.

message
Indicates that a message is being sent (WHITE), successfully sent (GREEN), or message failure (RED).

12:00 time
This is the time of day at your location. It sets itself automatically.

motion detector
Indicates that the built-in motion detector is seeing movement.

battery charge
GREEN icon indicates external power is present and battery is charging. RED icon indicates that the unit is unplugged from AC power and the amount of battery power remaining.

trouble
Indicates whether a sensor has a low battery or is lost. Touch to view the sensors trouble condition.

settings
This takes you to the system settings screen. There you can manage your entire system.

fire
Press for 3 seconds to signal a fire emergency to your local fire department. Requires professional monitoring activation.

medical
Press for 3 seconds to signal a medical emergency. Requires professional monitoring activation.

police
Press for 3 seconds to signal a police emergency. Requires professional monitoring activation.

disarm
